

## Basic Science Workshop EPC 2019

### Tools of the Trade in pancreatic biology

**Place: Grieghallen Conference Center (Bergen city)**

**Time: Wednesday June 26<sup>th</sup>, 10.00-13.30**

#### **Speakers and topics:**

Minoti Apte, Sydney, Australia: **Pancreatic stellate cells - what's new?**

Maria I. Vaccaro, Buenos Aires, Argentina: **Autophagy in pancreatic disorders**

Jonas Rosendahl, Halle, Germany: **Genome-wide association studies in pancreatitis**

Rainer Heuchel, Stockholm, Sweden: **Mouse models for pancreatitis**

Miklos Sahin-Toth, Boston, USA: **Modeling human pancreatitis in genetically altered mice**

Alexander Kleger, Ulm, Germany: **Pancreatic stem cells**

Daniel Öhlund, Umeå, Sweden: **Organoids**

Gregorio Di Franco, Pisa, Italy: **Modelling pancreatic cancer in zebrafish embryos**

Arthur Chevallier, Lyon, France: **Modelling pancreatic cancer in avian embryos**

**A detailed program will follow later.**
